Gate 2 Phase 1 – GSP Update Webinar

03 September 2026

Housekeeping

Microphones

Microphones have been set to 'mute' for this session. This is to minimise background noise for all attendees.

Have a question or piece of feedback?

Please use the Q&A button, located at the top of your screen, to send questions to our team. We will answer as many as we can during the session.

Session Recording

We are recording our presentations and responses to any questions for sharing through our website.

Session follow up

We will share the presentation, including Q&A, as soon as possible after this session through our website:

<https://connections.nationalgrid.co.uk/connections-reform/>

Additional Gate 2 Phase 1 webinars

If you have projects in multiple GSP batches, please look out for invitations to those webinars. They will be sent to you by email.

GSPs under discussion today

- **Alverdiscott**
- **Axminster**
- **Chesterfield**
- **Indian Queens**
- **Lea Marston**
- **Pembroke**

Phase 1 Batch Transparency

Batch 6

CURRENT POSITION
Offers being prepared

GSPs in this batch

- Alverdiscott
- Axminster
- Chesterfield
- Indian Queens
- Lea Marston
- Pembroke

TOCO Information received
3 August 2026

AtV received information from NESO
14 August 2026

Expected offer issue
Week commencing 21
September 2026

For full transparency we are regularly publishing an updated view on our website for the latest status of all Phase 1 batches:

<https://connections.nationalgrid.co.uk/connections-reform/gate-2-phase-1-offer-schedule/>

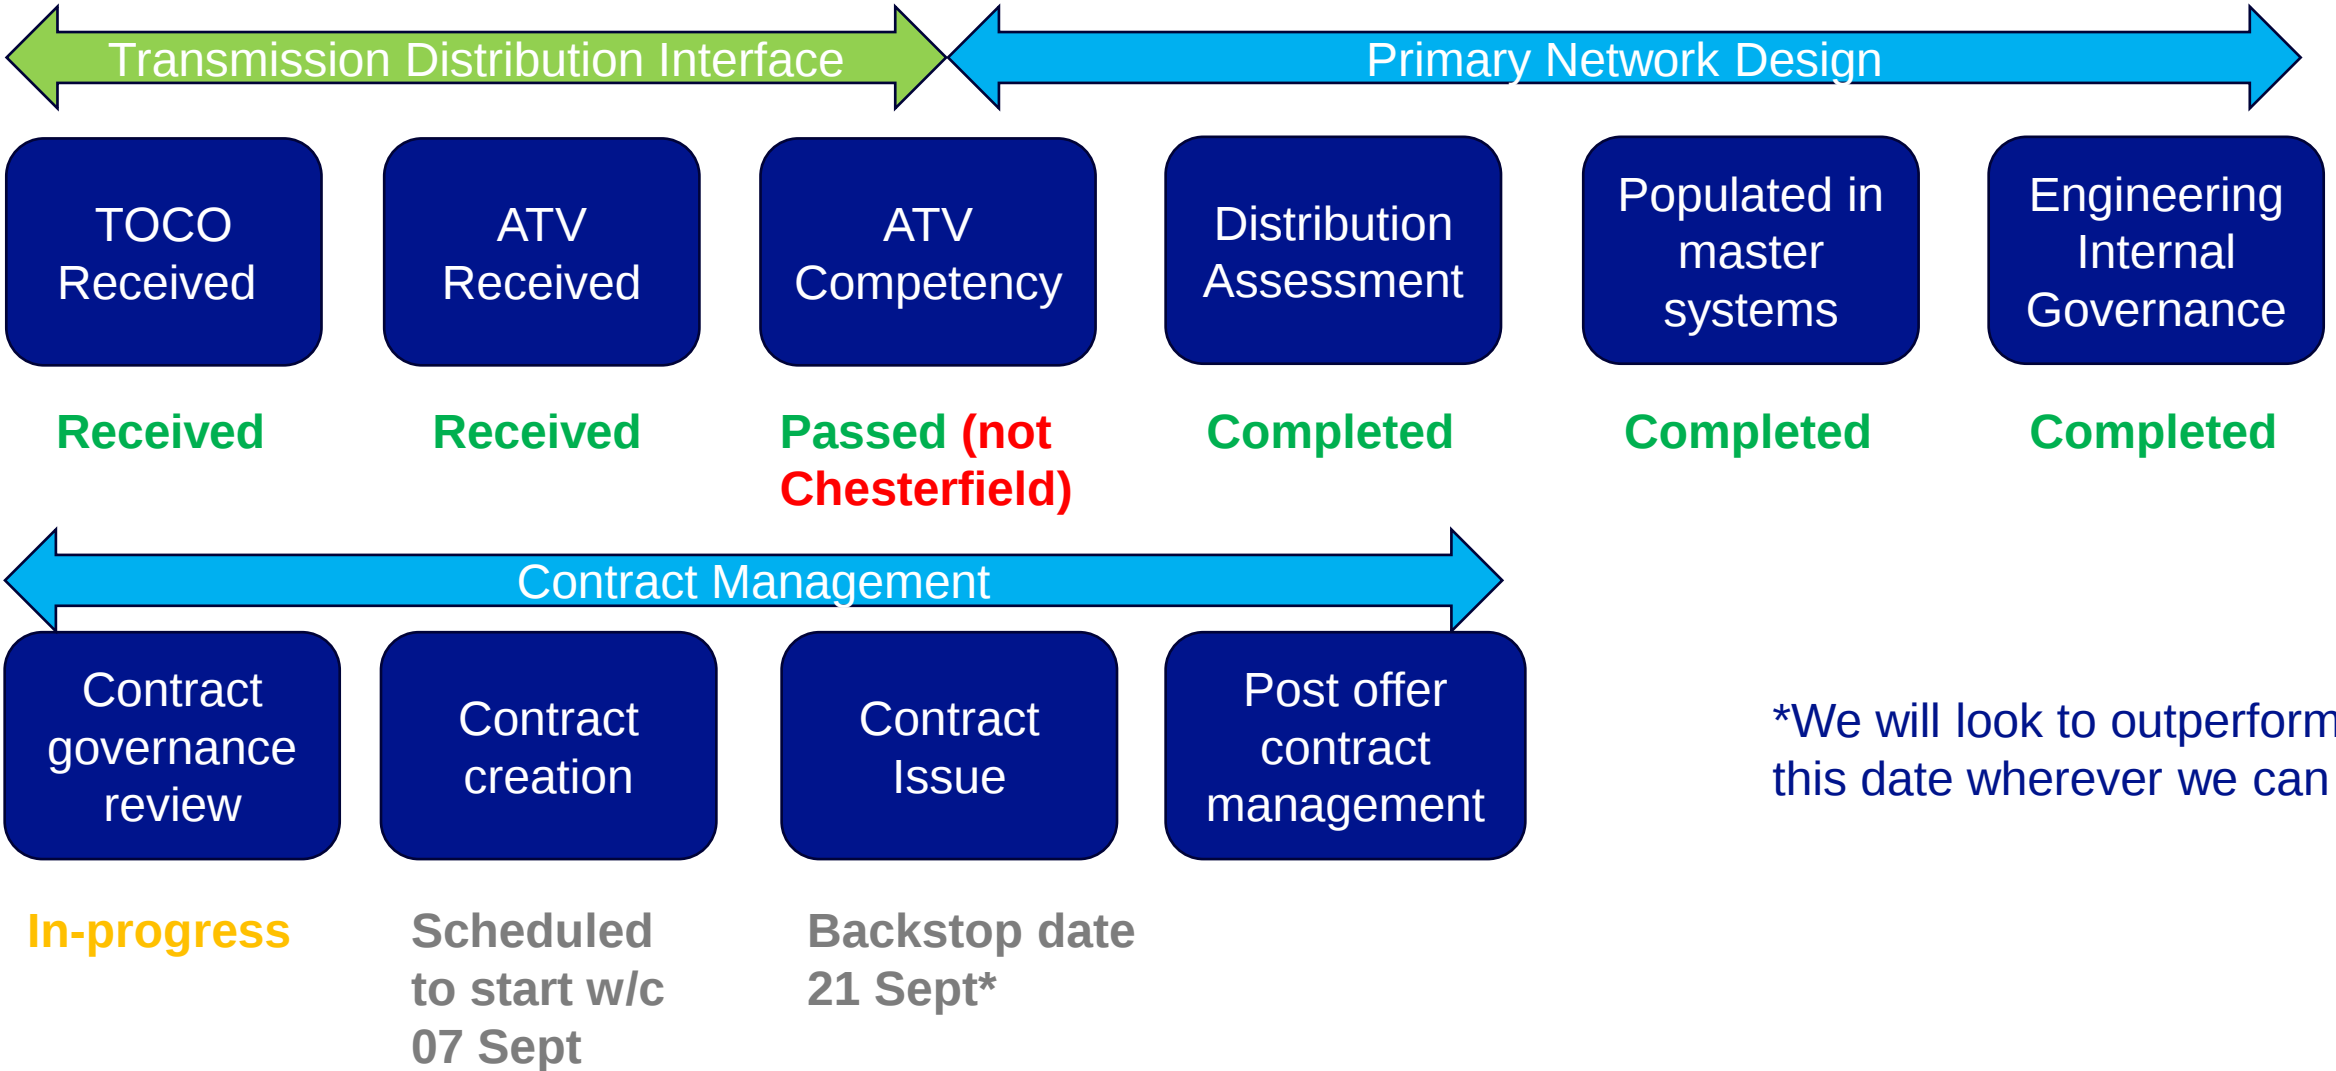

This includes information on:

- Status of early sight of Transmission Owner Connection Offer (TOCO)
- Confirmation of whether we have received the formal Agreement to Vary for these GSPs

GSP Level Findings Summary

GSP Name	Updates identified				
	NESO Queries	Point of Connection	Reinforcement / Works Requirements	Energisation Timelines	Cost insight
Axminster	We have raised a few minor queries with NESO as part of offer review, but nothing material that will stop us issuing our offer to customers or signing offer	No change to any schemes' transmission Point of Connection (PoC)	This NESO offer includes <u>no-works or costs</u> .	No restriction on energisation due to transmission works	No pass-through costs from transmission. Cost increases for the distribution works are expected.
Lea Marston					
Pembroke			NGET SCS Database Changes will be required for generator connections being made to the first 132kV section of Pembroke GSP		
Alverdiscott			No works but with an added requirement for <u>SGT flexible forward powerflow control</u> for BESS connections		
Indian Queens					
Chesterfield	There are some clerical errors in the offer raised with NESO – we will issue the offers once these are resolved		This NESO offer includes <u>no-works or costs</u> .		

Detailed Batch 6 Status

Next Steps

Curtailment reports

Our team is currently producing the Curtailment Reports which will form part of your Gate 2 Phase 1 Variation Offer where required

Internal assurance

We will review the full contents of your offer, ensuring that it is as accurate before issuing

Issuing your offer

Once we have reviewed your offer, we will send it to you by email and DocuSign. We expect this to be in the next two weeks; we will proactively let you know if this changes for any reason.

Customer signing

You then have 30 calendar days to sign and return your offer. You will need to use DocuSign to do this.

Questions?

If you have any questions about the content of your offer, please contact the Connections Reform team, using the details accompanying that offer.

Useful Resources

You can stay up-to-date with where we are on Connections Reform via our newly updated website:

<https://connections.nationalgrid.co.uk/connections-reform/>

This contains information on:

- Connection Reform Background
- Offer pipeline and application windows
- Guidance and FAQs
- Distribution Queue ordering methodology
